[Export -All 2024 Directives- to PDF](#)

On July 8, 2024, Toledo Fire & Rescue's responses to 'In-Service Assist' typecodes will change to an 'Assist'. This has been changed in procedure [C-55](#) which has been submitted to L92 and L3382.

There will be very little that changes with this but includes:

- Radio Channel-1 will not be used. The entire incident will be conducted on radio Channel-3,
- The assigned crew will be eligible for diversion to a higher priority incident while enroute to the 'Assist' incident.
- Once on-scene of the 'Assist' incident, the crew cannot be reassigned to another incident.
- If the initial crew is reassigned to a higher priority incident, all crews subsequently assigned to the Assist incident can possibly be reassigned also if the circumstances dictate.
- Proper assessments, actions, and documentation will be completed.

Effective Date: June 26, 2024
