Operational Information:

A-Shift has reached the time where the first 312-hour Medic Unit ride time rotation will be reset.

The 'trigger' for this reset is that the next A-Shift tour (Friday, December 19) does not have enough scheduled on-duty paramedics to staff the (15) Medic Units without utilizing members beyond their 312-hour limitation.

So, to follow the agreed to stipulations of the Collective Bargaining Agreement (CBA) with Local 92 and not force members to ride beyond the 312-hour restriction, the rotation will be reset and Friday will start the next rotation.

Tuesday, December 16th, A-Shift will be the last tour for the first rotation and the hours ridden through this tour will either be added to or subtracted from the 312-hour requirement for the second rotation. These calculations will be made and added to the chart found on the TFRD Web after the completion of Tuesday's shift.

Thank You

Effective Date: December 19, 2025
